MINNESOTA FIRE SERVICE CERTIFICATION FIRE INSPECTOR I SKILLS TESTING

Fire Inspector I Examination:

The **Fire Inspector I** examination consists of two parts, a written question portion and a written skills portion. Both of these examinations are proctored and timed. Both examinations must be completed in the presence of the examiner at the test site.

There are no books, notes or references permitted to be used for the written question examination.

The current adoption of the Minnesota State Fire Code may be used as a reference for the written skills examination.

Both the written question and written skills examinations must be completed within the four hour time allotted for the full examination.

Upon completion of the examination or the expiration of time, you must return both the written question and the written skills examinations to the examiner.

In each written skills examination question, you are provided with information on the skill, scenario and competency.

It is to your advantage to carefully read each skill, scenario and competency.

These areas form the basis for the critical criteria required to correctly answer the question.

The information required to correctly answer the question is provided in the skill, scenario and competency. Do not read things into the question or perceive possible information which is not provided.

In answering the question, carefully provide **all information** required in the skill, scenario and competency.

Failure in any portion of a question, fails the question.
